Global health promotion scaling up for 2015 - A brief

Global health risks: mortality and burden of disease attributable to selected major risks. 1. Risk factors. 2. World health. 3. Epidemiology. 4.

GLOBAL HEALTH RISKS - who.int

Global health is the health of populations in the global context; it has been defined as "the area of study, research and practice that places a priority on improving health and achieving equity in health for all people worldwide". Problems that transcend national borders or have a global political and economic impact are often emphasized. Thus ...

Global health - Wikipedia

The effects of global warming are the environmental and social changes caused (directly or indirectly) by human emissions of greenhouse gases. There is a scientific consensus that climate change is occurring, and that human activities are the primary driver. Many impacts of climate change have already been observed, including glacier retreat ...
