Social Affairs Economic Globalization: Trends, Risks and

Abstract. Globalization is the process of increased interconnectedness among countries. The prosperous economic development that is typically gained because of the increased interconnectedness among countries usually results in a better standard of living, and an overall improved quality of life.

The Role of Globalization in Economic Development by

Proponents of economic growth, expansion and development in general, see the globalization processes as desirable and necessary for the good of human society. Critics see one or more processes of globalization as detrimental to social welfare on a global or local scale.¹³ This includes all those who question the social and natural sustainability on long term, the continuous economic expansion ...

Globalization: Definition, Processes and Concepts

First, the coefficient measuring the effect of the economic globalization on growth was positive and significant, indicating that economic globalization affects economic growth of OIC countries in a positive way. Second, the positive effect of globalization on growth is increased in countries with higher level of human capital and deeper financial development. Finally, economic globalization ...

Globalization and Economic Growth: Empirical Evidence on

economic globalization has a significantly positive influence on economic growth. However, our results also show that social globalization has a negative influence on economic growth, while political globalization has a non-significant negative effect.
