Climbing Your Family Tree: A Pathfinder

On your ahnentafel chart, you would be number 1. Your father, would then be number 2 (your number * 2 -> 1*2=2), and your mother, number 3 (1*2+1=3). Other than the starting person, males always have even numbers and women the odd numbers.

NGSQ Numbering What is the NGSQ Numbering System?

Several genealogical numbering systems have been widely adopted for presenting family trees and pedigree charts in text format. Among the most popular numbering systems are: Ahnentafel (Sosa-Stradonitz Method), and the Register, NGSQ, Henry, d'Aboville, Meurgey de Tupigny, and de Villiers/Pama Systems [citation needed]

Basic Genealogy - The Library

When numbering your genealogy, it is best to adopt a well-established system that is easily interpreted. Even if you're using a genealogy software program to compile your family history, it is still important to understand the differences and formats of the most widely-used numbering systems.

Numbering Your Family Tree - ThoughtCo

A new pedigree numbering system has been developed for the family history and genealogy community as an alternative that visibly displays ancestral lines and generations in multiple presentation formats. This follows straightforward genealogical thinking and addresses important needs in selecting your numbering system.
