International law is a set of rules intended to bind states in their relationships with each other. It is largely designed to apply to states, both to constrain (the laws of war) and to empower them (law of sovereignty).

International Law and International Relations - Oxford

Law is one of the central products of politics and the prize over which many political struggles are waged. The early American jurist James Wilson observed that law is the "great sinew of government" (Wilson 1896, 1, 314).

Overview of Law and Politics the Study - Oxford Handbooks

This site is devoted to the production or performance of works from earlier periods of English spoken in original pronunciation (OP) – that is, in an accent that would have been in use at the time.
